4. FIRST AID MEASURES

If inhaled
Move casualty to fresh air and keep at rest. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

In case of skin contact
Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and wash using soap. Get medical attention immediately.

In case of eye contact
Immediately rinse with plenty of water for at least 15 minutes and seek medical attention immediately.

If swallowed
DO NOT INDUCE VOMITING! Never give anything by mouth to an unconscious person. If conscious, wash out mouth with water. Get medical attention immediately.

5. FIRE-FIGHTING MEASURES

Conditions of flammability
Not flammable.

Suitable extinguishing media
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide on adjacent fires.

Special protective equipment for firefighters
Wear self contained breathing apparatus and full protective clothing, including eye protection and boots.

**Special hazards arising form the chemical**
Emits toxic fumes (Chromium oxides) under fire conditions. See also Stability and Reactivity section.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**
See section 8 for recommendations on the use of personal protective equipment.

**Environmental precautions**
Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided. Any release to the environment may be subject to federal/national or local reporting requirements.

**Methods and materials for containment and cleaning up**
Cleanup personnel need personal protection from inhalation and skin/eye contact. Evacuate and ventilate the area. Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal. Clean surfaces thoroughly with water to remove residual contamination. Any release to the environment may be subject to federal/national or local reporting requirements. Dispose of all waste or cleanup materials in accordance with local regulations.

### 7. HANDLING AND STORAGE

**Precautions for safe handling**
See section 8 for recommendations on the use of personal protective equipment. Use equipment. Use with adequate ventilation. Wash thoroughly after using. Keep container closed when not in use.

**Conditions for safe storage**
Store in cool, dry well ventilated area. Keep away from incompatible materials (see section 10 for incompatibilities).
